

EQUIPOS PARA POLVO Y LODO

HUSQVARNA S 13

Art.no: 967 66 40 01

S 13 is a quiet-operating single-phase HEPA dust collector to match the power cutter Husqvarna K 3000, hand held grinders, small grinders 5-7", small scarifiers and drywall sanders. This professional dust extractor is an all-around construction vacuum for picking-up a wide range of building materials and debris. Equipped with a tested and certified HEPA H13 filter. Features include Jet Pulse pre-filter cleaning and vacuum meter for filter control. The non-marking wheels are puncture free and lock at the front. The Longopac® bag hose system ensures simple, dust-free bag changes.

FEATURES

Efficient filtration system

The three separate filtering stages result in longer working time between filter cleaning. The dust is filtered through a cyclone chamber, which separate the heaviest parts, up to 95% of the dust, before the washable main filter. The HEPA micro filters are individual tested and certified to capture 99.99% of the remaining silica dust in the respirable fraction (0.3µm).

Easy and efficient filter cleaning

The Jet Pulse filter cleaning system ensures high continuous airflow thanks to easy and efficient cleaning of the conical main filter without opening the machine.

Durable design

Corrosion-resistant steel clamps, welded frame with dust bag platform and durable steel handle make it ready to serve for many years.

Easy to transport

The welded frame enables easy transportation by resting the machine on the frame.

TECHNICAL DATA HUSQVARNA S 13

Art.no: 967 66 40 01

HUSQVARNA S 13

MOTOR

Diámetro máximo de brocas, manual	1.2 kW
Fases	1 ph
Voltaje	110-120 V
Corriente nominal, A	8 A
Ciclo de fase de corriente	50-60 Hz
Aspiración máx.	240 mbar
Fuente de alimentación	Cable

DATOS DEL PRODUCTO

Air flow	219 m³/h
Área de superficie de filtración primaria	1.5 m²
HEPA Filters 99.99% at 0.3 microns	1

DIMENSIONES

Longitud del producto	680 mm
Ancho del producto	400 mm
Altura del producto	1,100 mm
Peso	30 kg
Longitud del embalaje	680 mm
Ancho del embalaje	400 mm
Altura del embalaje	1,100 mm
Peso bruto del artículo	38,000 g
